MODEL 650

2.5H/P Portable Industrial Vacuum

- Power requirements: 230V/1-ph/60Hz, 14Amp service
 - Direct-drive vacuum producer with 2.5HP (1.88 kw) continuous-duty motor with nation-wide warranty service at over 5,000 locations.
 - Unique primary filter (rated 99.7% efficient @ 0.5 micron) elements with 40 Sq. Ft. of filter area of non-stick coating have excellent dust release to prevent filter blinding and motor overheating. Filter plate is removable without tools: maximum uptime! Each cartridge can be individually removed without tools for easy inspection or replacement.
 - Ultimate Filter Cleaning: Unique 4-way valve backwashes the filter with a huge burst of air while venting the vacuum producer at the same time—100% of the backwash air goes **directly** to the filters. No compressed air required!
- * Standard HEPA safety filter, D.O.P tested and certified for 99.97% efficiency @ 0.3 microns.

- Maintenance-free automatic discharge valve means faster discharge time for the collected dust—get back to work sooner!
- Dust-free continuous bagging system. No metal container to lug around.
- NEMA 4 Starter.
- Heavy-duty welded frame construction with powder coat finish. Durable 8" wheels and 4" swivel casters for easy movement up ramps and over uneven floors.
- Compact size fits work vans and fits conventional doorways and elevators.

Performance:

Maximum vacuum: 7" Hg (95 " waterlift)

Maximum airflow: 160 CFM

Inlet Size: 2.0" OD tube shank

Footprint: 48" Long X 26" Wide X 68" Tall (1220mm x 660mm x 1730mm)

Weight: 260 (118kg) lbs
