OVERHEAD CLEANING TOOLS

Vacuum cleaning tools to reach overhead surfaces

- Conduit & pipes from 1" OD to 8" OD
- I-Beam flat surfaces
- Building Joists
- Tops of machinery
- Cable trays
- Above false ceilings
- HVAC and Dust collector duct work
- Vertical surfaces: Cinderblock or brick

OSHA Combustible Dust National Emphasis Program Directive # CPL03-00-006 and NFPA 654 (Guidelines for combustible dusts) state:

" Immediate cleaning is warranted whenever a dust layer of 1/32" thickness over a surface area of at least 5% of the floor area of a factory or any given room"
(P.S. 1/32" is the thickness of an average paperclip!)

The available dust-bearing surface area of typical bar joists is equal to 5% of the floor space by itself! For I-Beam construction, the equivalent jumps to 10% of the floor area!
